Architectural Fabrication

# EXPOSED FASTENER METAL PANEL SYSTEMS

## STRONG, VERSATILE & BUDGET-FRIENDLY

Sometimes called through-fastener, exposed fastener metal panels are installed using screws that go through the top of panels and fasten directly to the roof deck resulting in the distinctive look of visible fasteners.

## PRODUCT ATTRIBUTES

- ✓ Strong, lasting performance
- ✓ Classic metal roof aesthetic in variety of styles
- ✓ Great choice for mansard roofs, soffits and other accents
- ✓ Ideal for interior applications such as accent walls or ceilings
- ✓ Lengths up to 50'
- ✓ Available in 50+ colors with matching painted fasteners
- ✓ Finish warranties<sup>†</sup> up to 50 years / Metal warranties<sup>†</sup> up to 25-1/2 years

## QUICK, EASY INSTALLATION

HORIZONTALLY OR  
VERTICALLY

**YOUR ONE STOP SHOP FOR METAL ROOFING. STRENGTH YOU CAN TRUST.**

Proudly finished with your choice of Kynar 500® (70% PVDF), WeatherXL™ (SMP), Acrylic-coated Galvalume® or Tedlar® PVF film
